Luxembourg - European Stability Mechanism (ESM) has today launched and priced 2 bills and 3 floating rate notes for a total amount of close to €39.5 billion for the financial assistance to be provided for the recapitalisation of the Spanish banking sector. The ESM notes will be transferred to the FROB\*, the bank recapitalisation fund of the Spanish government, in the coming days. The FROB will use a share of these notes of close to €37 billion for the recapitalisation of the following banks that have been categorised as Group 1: BFA-Bankia, Catalunya-Caixa, NCG Banco and Banco de Valencia. The FROB will disburse a remaining share of up to €2.5 billion to capitalise SAREB, the Asset Management Company (AMC).

Klaus Regling, ESM's Managing Director stated "This is the first financial assistance provided by the European Stability Mechanism. It is an important event as the ESM has now started to actively fulfil its role as the permanent rescue mechanism for the euro zone".

The table below provides the details of these transactions. These notes were not funded via the market.
